Swedish artist Malou Berg announces release of New World Music 3 CD Album Boxset ***LightSongs***.

Malou Mountain Music, Sweden is thrilled to announce the release of the 3 CD album boxset ***LightSongs***. Now available on major streaming services and to order at Amazon.com

This is the first time a Swedish 3 CD Boxset is being submitted for Grammy[®] consideration in the "Best New Age, Ambience or Chant Album" category.

Singer/composer Malou Berg's new release of the 3 CD boxset ***LightSongs*** contains 15 songs spanning nearly three hours of music. It is the last and final in Malou Berg's series of nine CD:s called ***The Pleiadian Suite***.

The arrangements combine melodious orchestration with Malou's voice and other vocalists, sung in Berg's imaginary language she calls Pleiadian. It's a melodious language, that intuitively is still understood on a spiritual level by the listener.

"It started on a whim when I was composing HOYA, the first album in my Pleiadian suite. At the piano, trying out melodies, I began to sing along with words that sounded good and felt nice to sing. That evolved and turned into words and the words became sentences. It just felt like a natural musical and universal language. That's how Pleiadian was born all those years ago", says Malou Berg.

LightSongs was recorded in one of Sweden's top studios Nilento, in Gothenburg. The composing, arranging and recording of the work took place over several years. Malou Berg is one of Sweden's most accomplished composers and arrangers in the field of world music.
